## Product Data Sheet

# Skatestop Edge

## Skate deterrent

Advanced stainless steel skate deterrent

Skatestop Edge deters skaters from 'grinding' on your property without impacting on its visual or intended use. With the ability to be integrated into the project design, it's an easy installation, particularly into expansion joints and grout lines, but is also suitable for retro-fitting. Demanding applications require rugged solutions and that's where Edge performs. Skatestop Edge is manufactured from marine grade stainless steel and is also available in Heritage Brass.

## Specification Guide

Install Skatestop Edge to all areas as required in accordance with the manufacturer's recommendations. Available from: Classic Architectural Group, 1300 244 377, [info@classic-arch.com](mailto:info@classic-arch.com)
