

Skatestop Skate Deterrent Skatestop Edge

Advanced stainless steel skate deterrent

Skatestop Edge deters skaters from 'grinding' on your property without impacting on its visual or intended use. With the ability to be integrated into the project design, it's an easy installation, particularly into expansion joints and grout lines, but is also suitable for retro-fitting. Demanding applications require rugged solutions and that's where Edge performs. Skatestop Edge is manufactured from marine grade stainless steel and is also available in Heritage Brass.

Specifications

Profile	L-shape
Height	55mm
