

Skatestop Skate Deterrent Skatestop Max

Ultra effective stainless steel skate deterrent

The best and most effective Skatestop. The Skatestop Max features a low profile and versatile design. Skatestop Max has been specially developed to deter not only skateboarding, but also biking as well by eliminating the long, smooth edges that landscapes often offer such users. In effect, Skatestop Max is a mini speed hump for your walls, planters, benches and other architectural features. Skatestop Max is manufactured from marine grade stainless steel.
